SPtech YE Series Synthetic greases for providing permanent smooth lubrication to precision equipment and for damping noise and vibrations to give a smooth feel to automatic mechanisms /devices Grease For High Speed Draw Texturizing Machines

Product Description

Stanvac SPTECH YE series damping lubricants are specially formulated synthetic greases for maintenance free lubrication of precision mechanisms and instruments.

Primarily developed for use as damping greases, these soft and built in extremely tacky consistency greases give a very smooth feel to automatic mechanisms and devices.

They form a non-drying, invisible film to effectively dampen noise and vibrations.

These greases do not dry out or harden even after long-term exposure to high temperatures and have very good resistance to oxidation, water, steam, humid environments and chemicals.

Application

For damping free movements due to vibration by increasing frictional resistance, sealing entry of moisture and providing a smooth free sliding noiseless motion to:

Automatic devices and precision instruments, Controllers, Tuners, Potentiometers, Optical Instruments, Push-pull controls, Spectrometers, Camera mechanisms, Telescopes, Hardware fittings, Speedometers, Slides, Ejector mechanisms of audio / visual systems, Damping grease for consumer electronic equipments, Damping grease for domestic appliances & hardware mechanisms

Benefits

- Inhibits vibrations and noise
- Non staining and extremely tacky, soft consistency lubricants
- Provides smooth sliding jerk free precise movement
- Stable & chemically inactive and safe on all plastics
- Non-drying and non-hardening
- Withstand very high temperatures and do not volatilize, evaporate or change consistency

Directions for Use

Use as supplied. Never dilute or mix with other oil or grease.

General

Use in well ventilated areas. Avoid continuous breathing of vapor and spray mist. In closed areas or areas with poor ventilation, use respiratory protection. For complete details on safety, short and long term exposure, refer to this product's safety data sheet (SDS).

Available Packaging

5 Kg

Shelf Life

36 months from date of manufacture in sealed condition.

Aerolube Technologies

SPtech YE Series Synthetic greases for providing permanent smooth lubrication to precision equipment and for damping noise and vibrations to give a smooth feel to automatic mechanisms /devices Grease For High Speed Draw Texturizing Machines

YE Series	YE 330, YE 300
Type	Synthetic lubricants
Appearance	Smooth tacky semi pastes
Color	Clear transparent
Base Oil	Synthetic
Density, g / cc	0.90 - 1.00
Flash point, °C	+250
Drop point, °C	NA

Disposal

All used and unused product should be disposed of in accordance with state regulations.

Handling

Read instructions on the container label of the product before use. The product safety data sheet (SDS) contains the relevant information regarding personal protective equipment, safe use, physical and health hazards. Safety data sheet is available from Aerolube or your local Aerolube distributor.

Limited Warranty

The information and data contained in this sheet is accurate to the best of our knowledge or is obtained from sources, tests or experiences believed by us to be reliable and accurate. User is responsible for determining whether recommended Stanvac product is fit for a particular purpose. All products should be tested for suitability on a particular application prior to actual use. We make no representations of any kind. Data offered without warranty. Product manufactured is for industrial use only.
